

Dear P.L.A.Y member:

P.L.A.Y. (Public Land Access Year-round) continues to diligently work towards protecting your rights. We continue to work with the US Forest Service, the US Army Corps of Engineers, the Idaho Department of Lands and large land owners such as Potlatch Corp. to keep public access available. We continue to work on the North/South trail system from Elk City to Avery with the goal of connecting into trails from other ATV groups to form a system from Canada to southern Idaho. Our website is also very popular with "out-of-area" ATV enthusiasts as well as other clubs who want information on public access activities. To continue this cause, it is important to have a strong membership base. Without our members, P.L.A.Y. would not have such a strong voice in meeting our many access challenges.

Membership benefits include meeting reminders, email alerts, event updates, quarterly newsletters and member rides in addition to the annual ATV and or UTV rides.
